LAUNCH 23

TURNING IDEAS INTO ACTION

Your support makes ideas possible.

Launch 23 connects students with entrepreneurial learning and community expertise. Students identify a need, explore a solution, develop a business concept and build the confidence to pitch it.

The planned 2027 model brings students together through registration at IGC23.com and a second-semester online course beginning in February. Teacher guidance, guest speakers and Okanagan College student mentorship would support their journey to the June competition.

Where your investment can make a difference

01 Idea development & testing

Customer research, surveys and testing to help students understand a need and refine a solution.

02 Prototypes & materials

Supplies, components, tools and small production runs to turn concepts into working examples.

03 Marketing & business skills

Packaging, branding, displays and digital tools to help students present and test their ideas.

04 Mentorship & learning

Workshops and learning resources in budgeting, pricing, pitching and business planning.

05 Equitable access

Project-cost or transportation assistance so financial barriers do not limit student participation.

06 Competition & next steps

Pitch events, presentation supports and seed funding or awards to help promising ideas progress.

Student ideas. Real-world possibilities.

Your contribution can help students access the materials, feedback and experiences they need to take an idea further.

LAUNCH 23

SPONSORSHIP BENEFITS

Your support. Your impact.

Connect your organization with student innovation and the Central Okanagan business community. Compare the recognition and participation opportunities at each level.
